Is This Trip Right for You?

- Uniqueness of Destination: Some of the accommodations are built in the traditional local style and have no air conditioning. During heat waves, these hotels can become uncomfortable. Short power outages are a regular occurrence in South Africa. Hotels in major cities are equipped with back-up generators so there are no interruptions to normal services, however hotels outside of major cities may have supplemental generators that provide electricity to only essential services. While on safari, on the motor coach and at remote lodges, Wi-Fi service is not available or extremely limited.
- Things to Consider: Expect several days with early mornings. Only "nature toilets" are available during game drives, which require the ability to squat. Game drives will be conducted in small safari vehicles that cannot be air-conditioned and have high ground clearance that require agility to embark and disembark. This tour includes animal-related activities which carry inherent risks, as animal behavior can be unpredictable. You may choose not to participate. Visitors to the Limpopo Province are encouraged to consult their health care provider regarding malaria prophylaxis. We suggest you check with your health care provider before signing up for this tour.
- Pace: Expect 1-2 hours of walking every touring day, as well as considerable time standing.
- Terrain: On this tour, you may need to walk on uneven and challenging terrain, navigate steep steps or slopes, and encounter cobblestone streets.
- Travel Style: This is a Value program
